

Unria is a private company based in Indonesia with diversified activity such as manufacturing, import, export and trading Food raw material and Ingredients distribution.

We always challenge ourselves to elaborate signature products that gives a unique sensory identity to our clients' products. More than good taste, our products solutions are built to provide an additional touch in the form of color, texture and sensation, thus anticipating consumer preferences.

Our motivation is to help our customers develop the best final products to ensure the success.

We specialized ourselves at creating specific solutions that can be tailored to our clients' individual needs and product categories in:

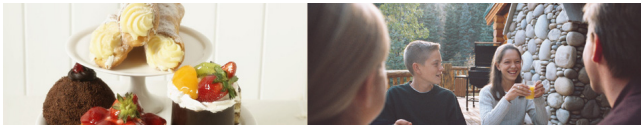

As your partner of choice in Food material, Unria provides you **Flavor & Aromatic Chemicals, Solvents, Cocoa Powders** and also other Food Ingredients products.

Every solutions we offer are responds to our clients' specific needs for application compatibility and final products stability; in order to meet today's complex challenges in all food applications.

Strength:

We can offer a wide range of food ingredients products. Our strength lies in the ability to provide customers with a variety of custom food ingredients, incl. flavors, at affordable cost.

Our operational staff can mix batches from tens kilograms to several tones. Our Total Quality Management system assures high quality, consistency and timely order processing. We keep focusing on cost-efficient operations.

Normal processing time is between 7 and 10 business days. However, when the need arises, rush service is one of our unique qualities in which we still take great pride in providing to our customers.

Our shipping staff ensures that all products are shipped in the most efficient manner and every container is safety sealed with a proprietary tamper-evident band.

Our staff is always sensitive to industry's demands for good packaging that not only serves to promote and contain our products, but also conforms to environmental as well as compliance responsibilities.
